

TrevorFest 2013

October 25-26th, 2013 Tucson, AZ

We cordially invite you to attend TrevorFest 2013, a retrospective workshop in honor of Trevor Weekes. The workshop will take place Saturday, October 26th at the Westward Look Hotel and Resort located in the foothills of Tucson, Arizona.

The meeting will consist of presentations highlighting the scope of Trevor Weekes' broad career in high energy astrophysics, spanning over 45 years. In addition, there will be presentations giving an overview and progress of current gamma-ray, cosmic-ray, and neutrino experiments which have undoubtedly benefited from Trevor's accomplishments.

Please join us for what will be a memorable weekend with friends and colleagues including a reception on Friday, October 25th and a banquet and celebration Saturday evening. Additionally, there will be opportunities for attendees to tour the Fred Lawrence Whipple Observatory and VERITAS array on Friday, October 25th.

For more information please visit: www.physics.utah.edu/trevorfest or contact us at trevorfest@physics.utah.edu

TrevorFest 2013 is made possible by generous support from the following institutions and corporate sponsors:

Smithsonian Astrophysical Observatory
